DAILY SANDUSKY REGISTER

MONDAY MORNING, JAN. 9, 1865.

Nunan's Map of Erie County.

It will be remembered by many of the readers of the *Register* that we some three years since called attention to the fact that Mr. Philip Nunan was then engaged in making surveys for a large and complete map of Erie county, and we also stated that arrangements were being made to have it include the Islands and so much of Ottawa county as lies contiguous to our borders. Since that time the work has been steadily pushed forward, in keeping with the plan as then given, and is now nearing its completion. Actual surveys have been made of the entire county, the Islands, and Ottawa county to a line five miles west of Port Clinton, including the region round about the "Club House," a place classic to the sportsman; giving the boundaries of every farm, the location of buildings, highways, railroads, streams, &c., &c. Correct plats have also been made of all the villages embraced within the boundaries named, and arrangements have been made to have them all published save Milan, which will doubtless be arranged for; as the denizens of the goodly old Indian town can scarcely afford to have their beautiful village ignored in such a important work. A large and very correct plat of Sandusky City has been prepared with much labor and care, embracing the territory lying between Mill's Creek on the west and beyond, to Pipe Creek on the east, and extending back from the Bay to the Township line, including most of the "grape region" and all the oil wells thus far arranged for.

The map will be ornamented with several engravings of some of the finest private residences in this region, at the head of which looms up the beautiful summer residence of Jay Cooke, recently erected on the classic Gibraltar Island. This perspective engraving will be a very fine one, giving a beautiful view of both the structure with its tower overlooking that delightful region of island and lake, and the rocky base upon which it stands, with its grove in the back ground and the Bay at its feet.

The residences of Geo. W. Clary, Birmingham; Hudson Tuttle and J. S. Davis, Berlin; John L. Hull, Perkins; Lewis Beaty Kelley's Island; W. Rehberg and A. Wehrle, Middle Bass; George Ellithorpe, Catawba Island, and B. F. Dwelle, Portage, are already sketched and will appear on the map, and room is yet reserved for others if there are other patrons of the map in the county who would be pleased to have perspective engravings of their fine abodes to show the grand-children where they once used to live.

The work has already passed once through the engravers hands, and the "proof sheets" are now with Mr. Nunan for correction and revision. An examination of this prompts us to say that it will be a very superior affair when published. The labor and care which its author has taken to make it complete, is everywhere apparent and the engraving is very fine indeed. The lettering in particular has been most neatly done. The lines are sharp and distinct, and the letters plain and uniform, quite unlike much of the cheap map engraving often seen.

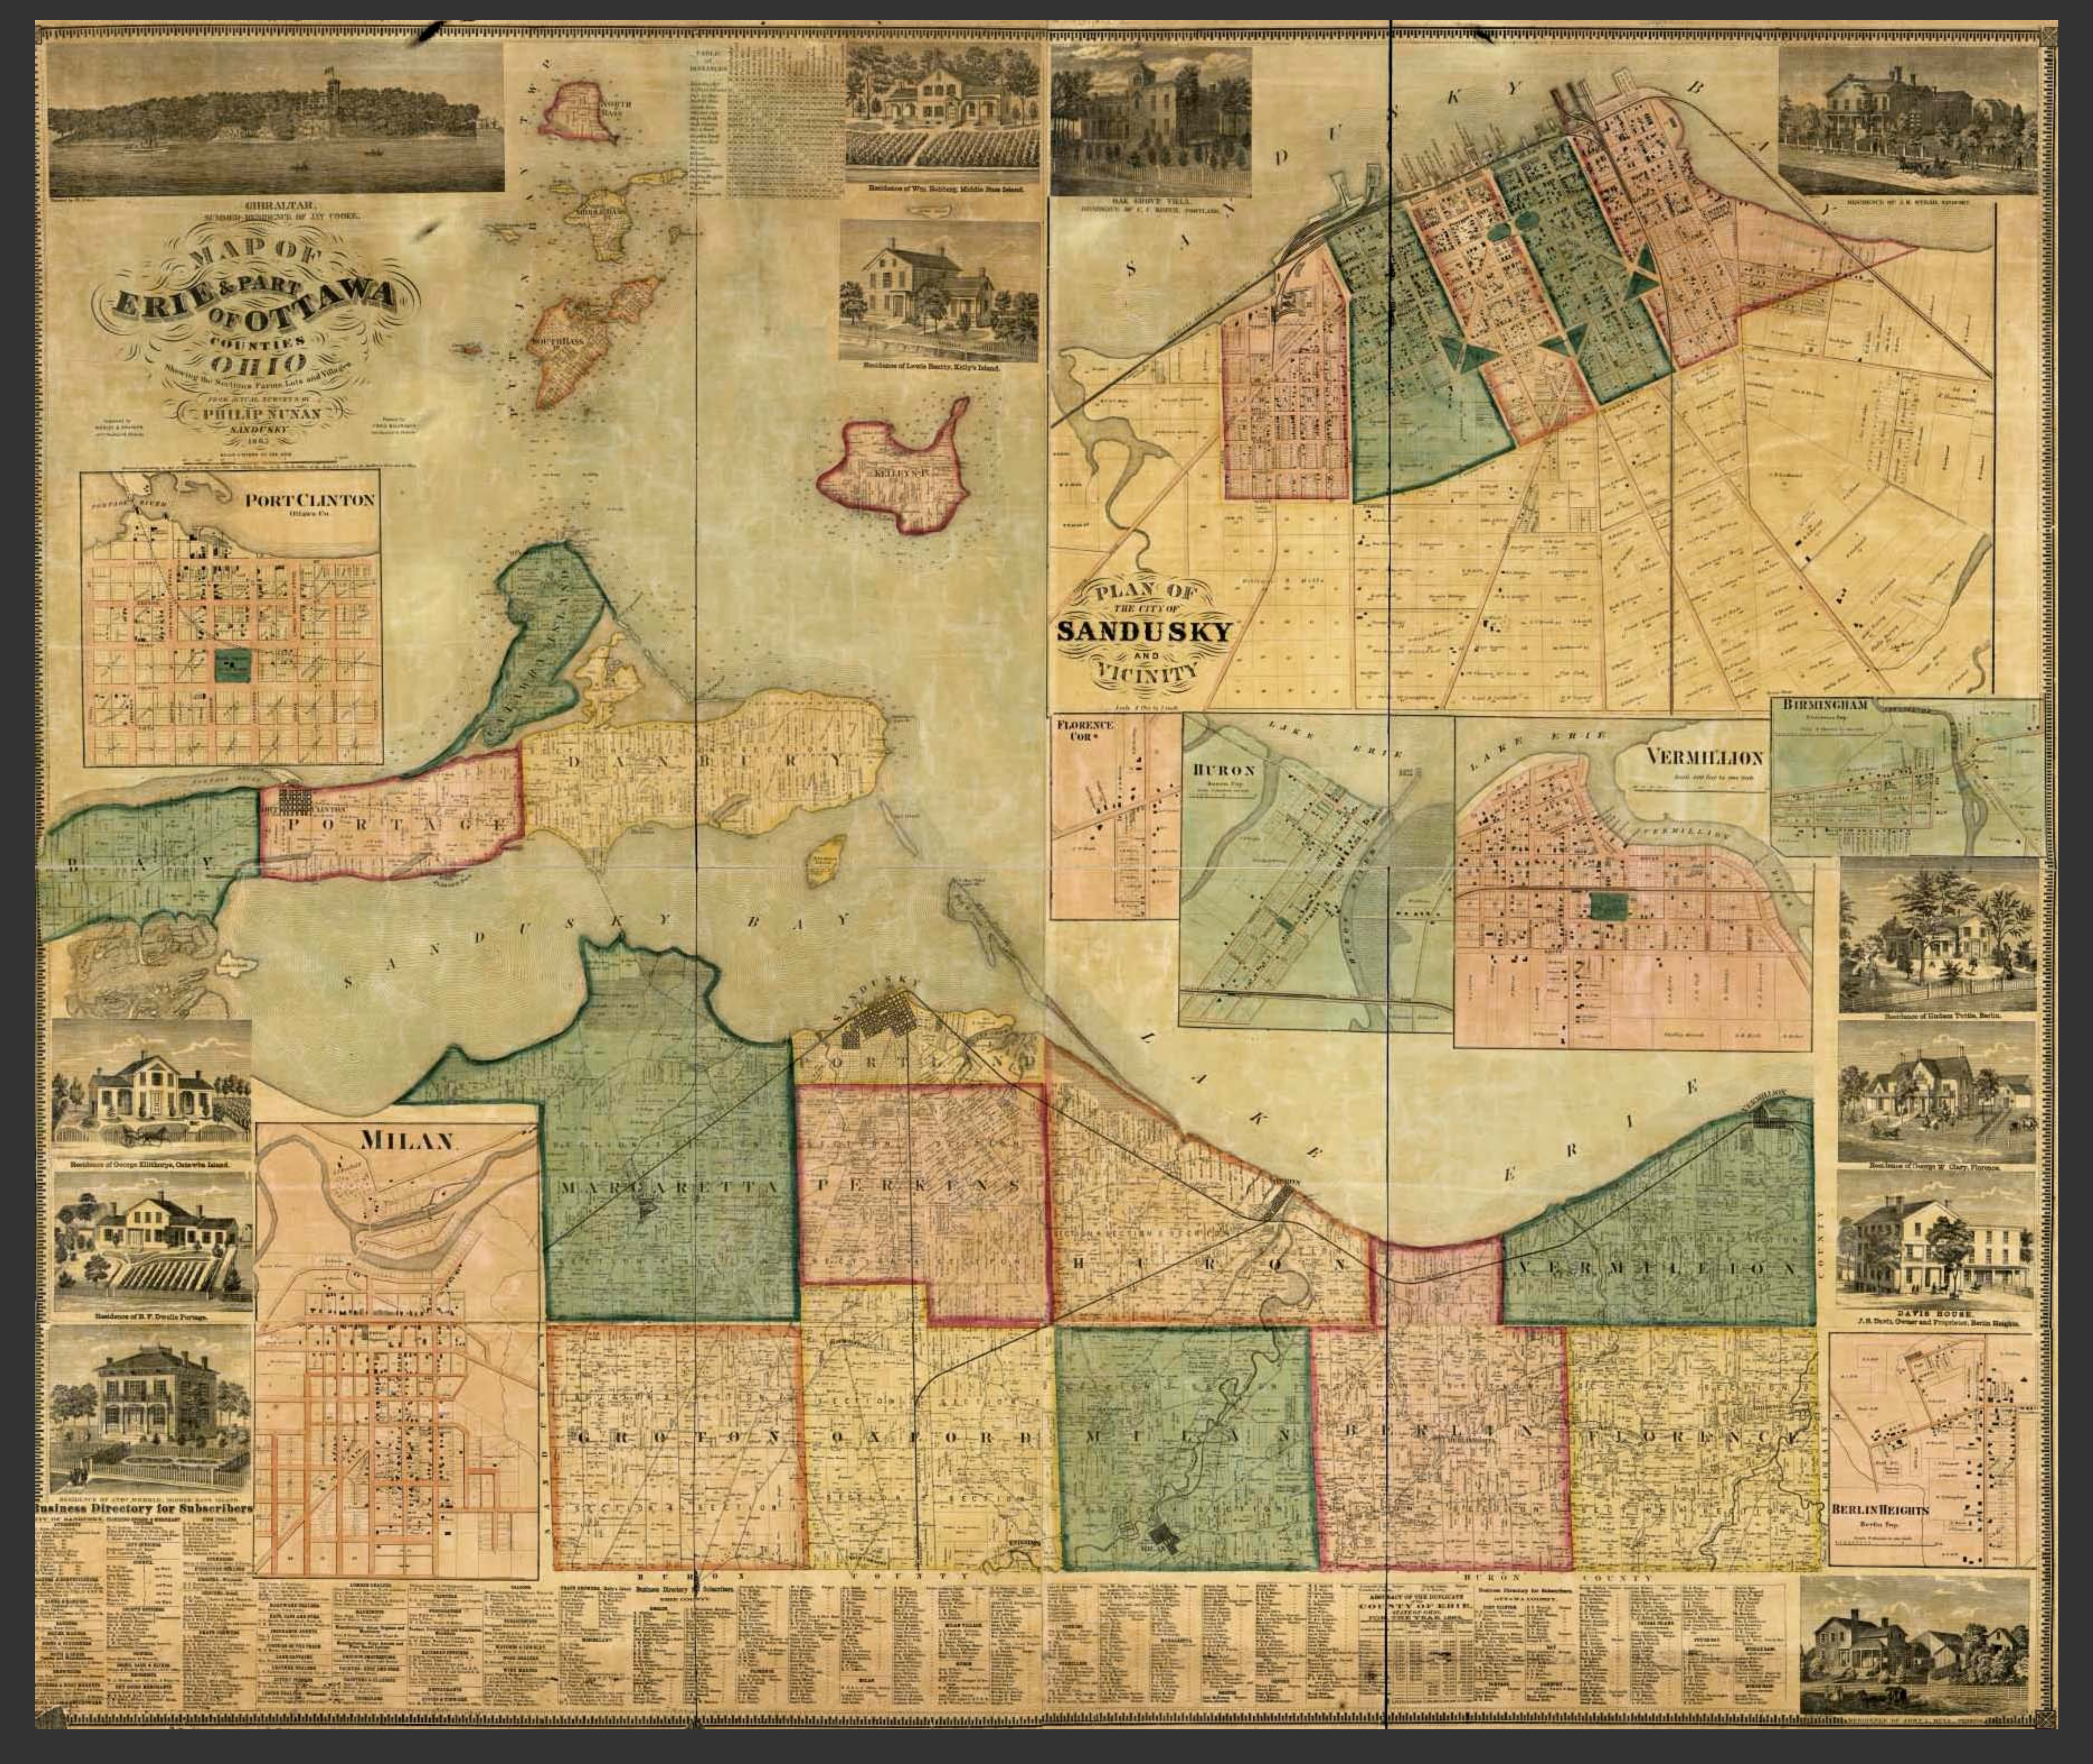

The map is 54 by 63 inches, and in addition to matters mentioned, it will present an engraved list of the names of all who sign for the work. In this connection we have two regrets to patch on to a thing which otherwise would be absolutely the finest work of the kind which we ever inspected. We regret that space has been reserved for a limited number of business cards; while Mr. Nunan well deserves the compensation which the insertion of a few selected cards would give, they really have no place in a work of such elegance. We regret also that owing to a want of sufficient encouragement, he finds himself obliged to ensmall the plat of this city. This ought not to be.

In conclusion, we venture the opinion that Nunan's map will be much sought af after. Something of the kind was greatly needed, and we think that when our citizens see the map they will join us in congratulations that the work fell into competent hands. Taking into account the completeness and elegance of the work; the fact that it embraces our entire "grape region"—the Islands, Peninsula, shore grapes, "Grape Ridge" and all—as well as the Sandusky oil region; the fact that it gives the boundaries of farms and lots with owners' names &c, the soundings of the waters about the Islands; in fact it contains almost everything which a well executed map should contain; these, together with the want of the times, will insure a large sale. Every man not wholly bound up in his own place of abode will *want* a copy, and few will feel able to get along without one.

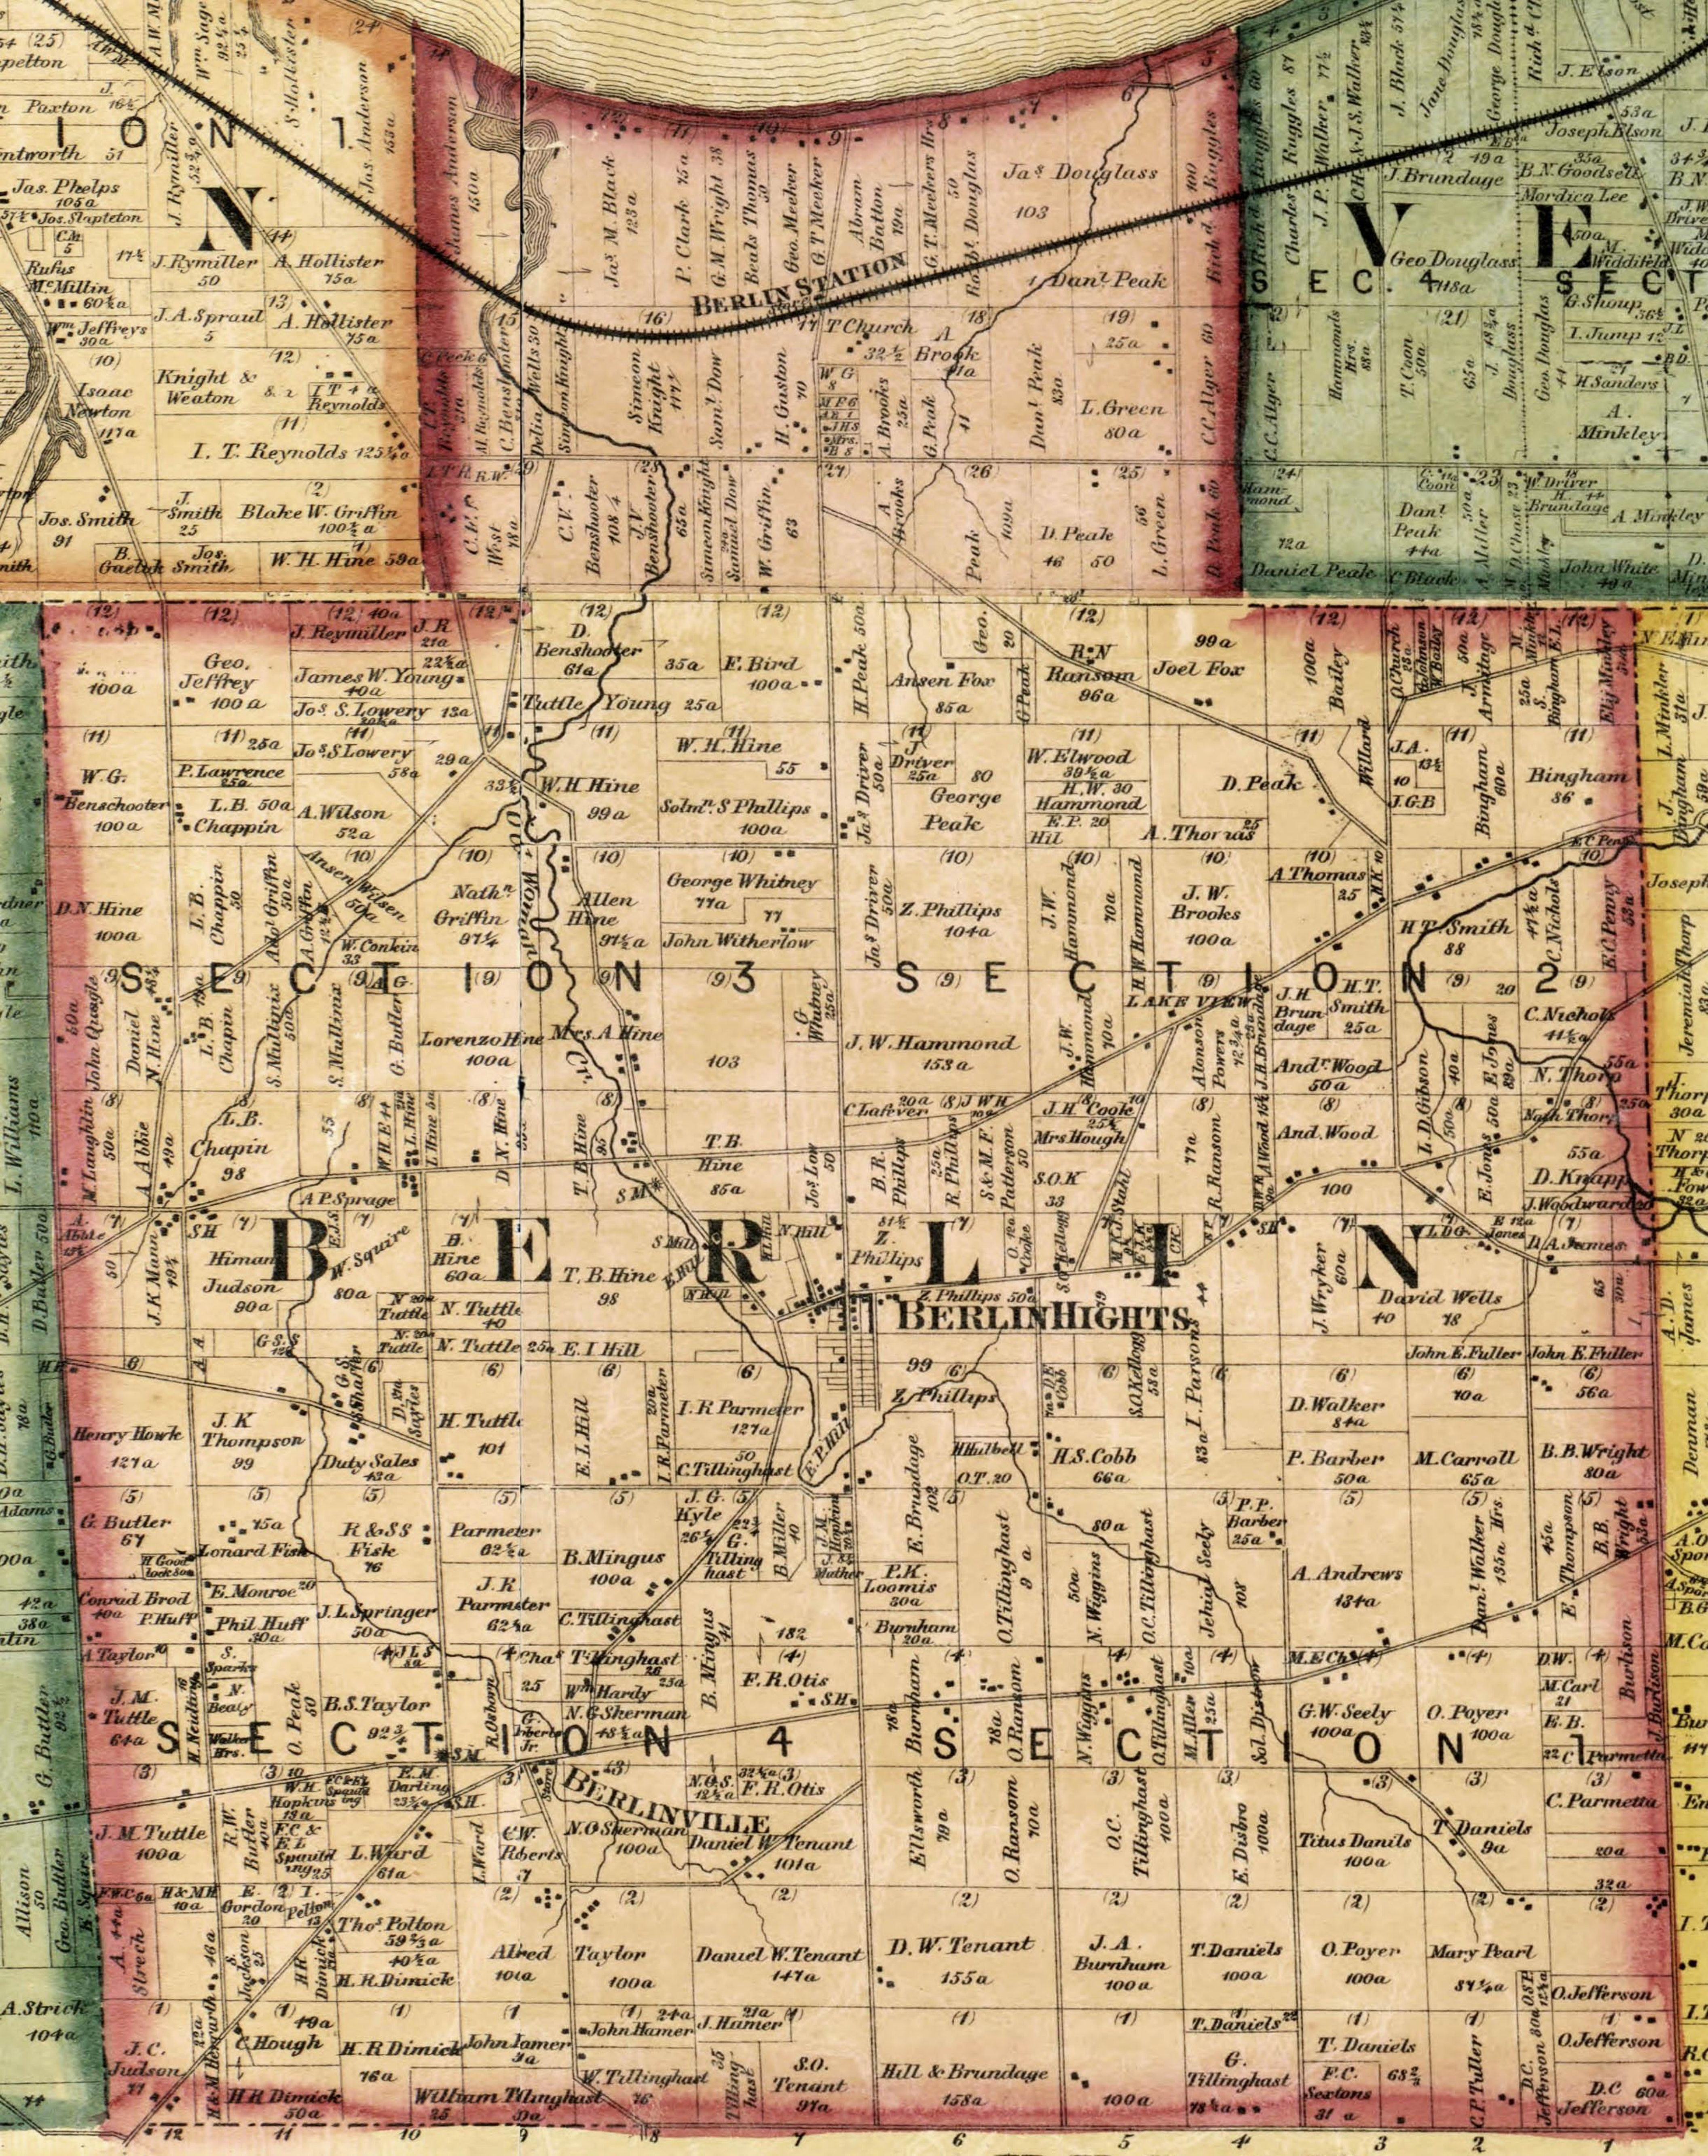

We learn that Mr. Nunan will canvass the city during this and the following week for subscribers, and we trust he will secure a liberal patronage. By the way, should not our city be represented in the ornamental part of this work? Are none of our citizens who live in palatial houses ambitious to see their fine abodes in paint? To our eye, Mr. Nunan's sketches are decidedly flattering, and we wot of some structures in this city which would look very fine engraved.

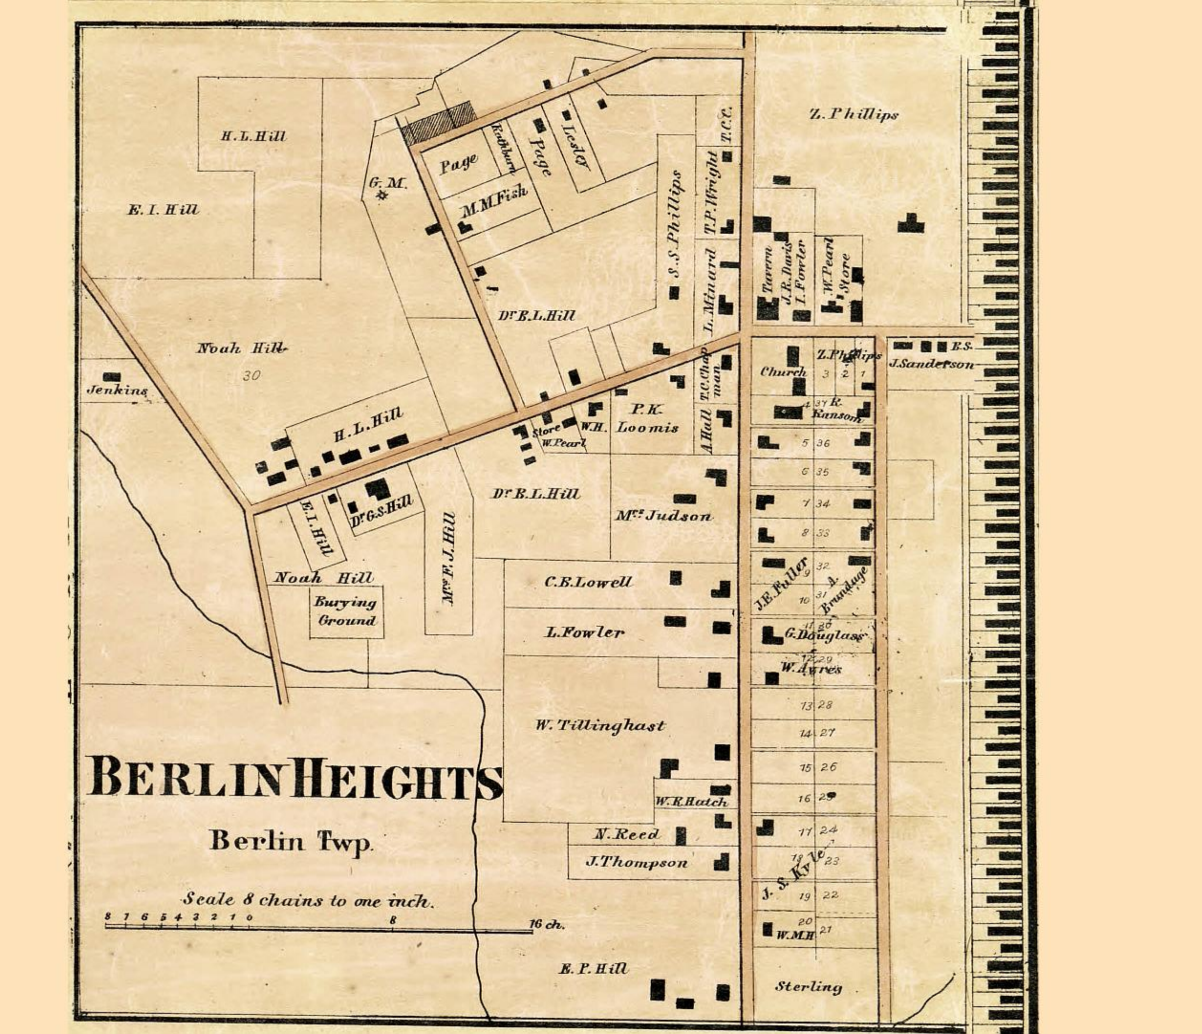

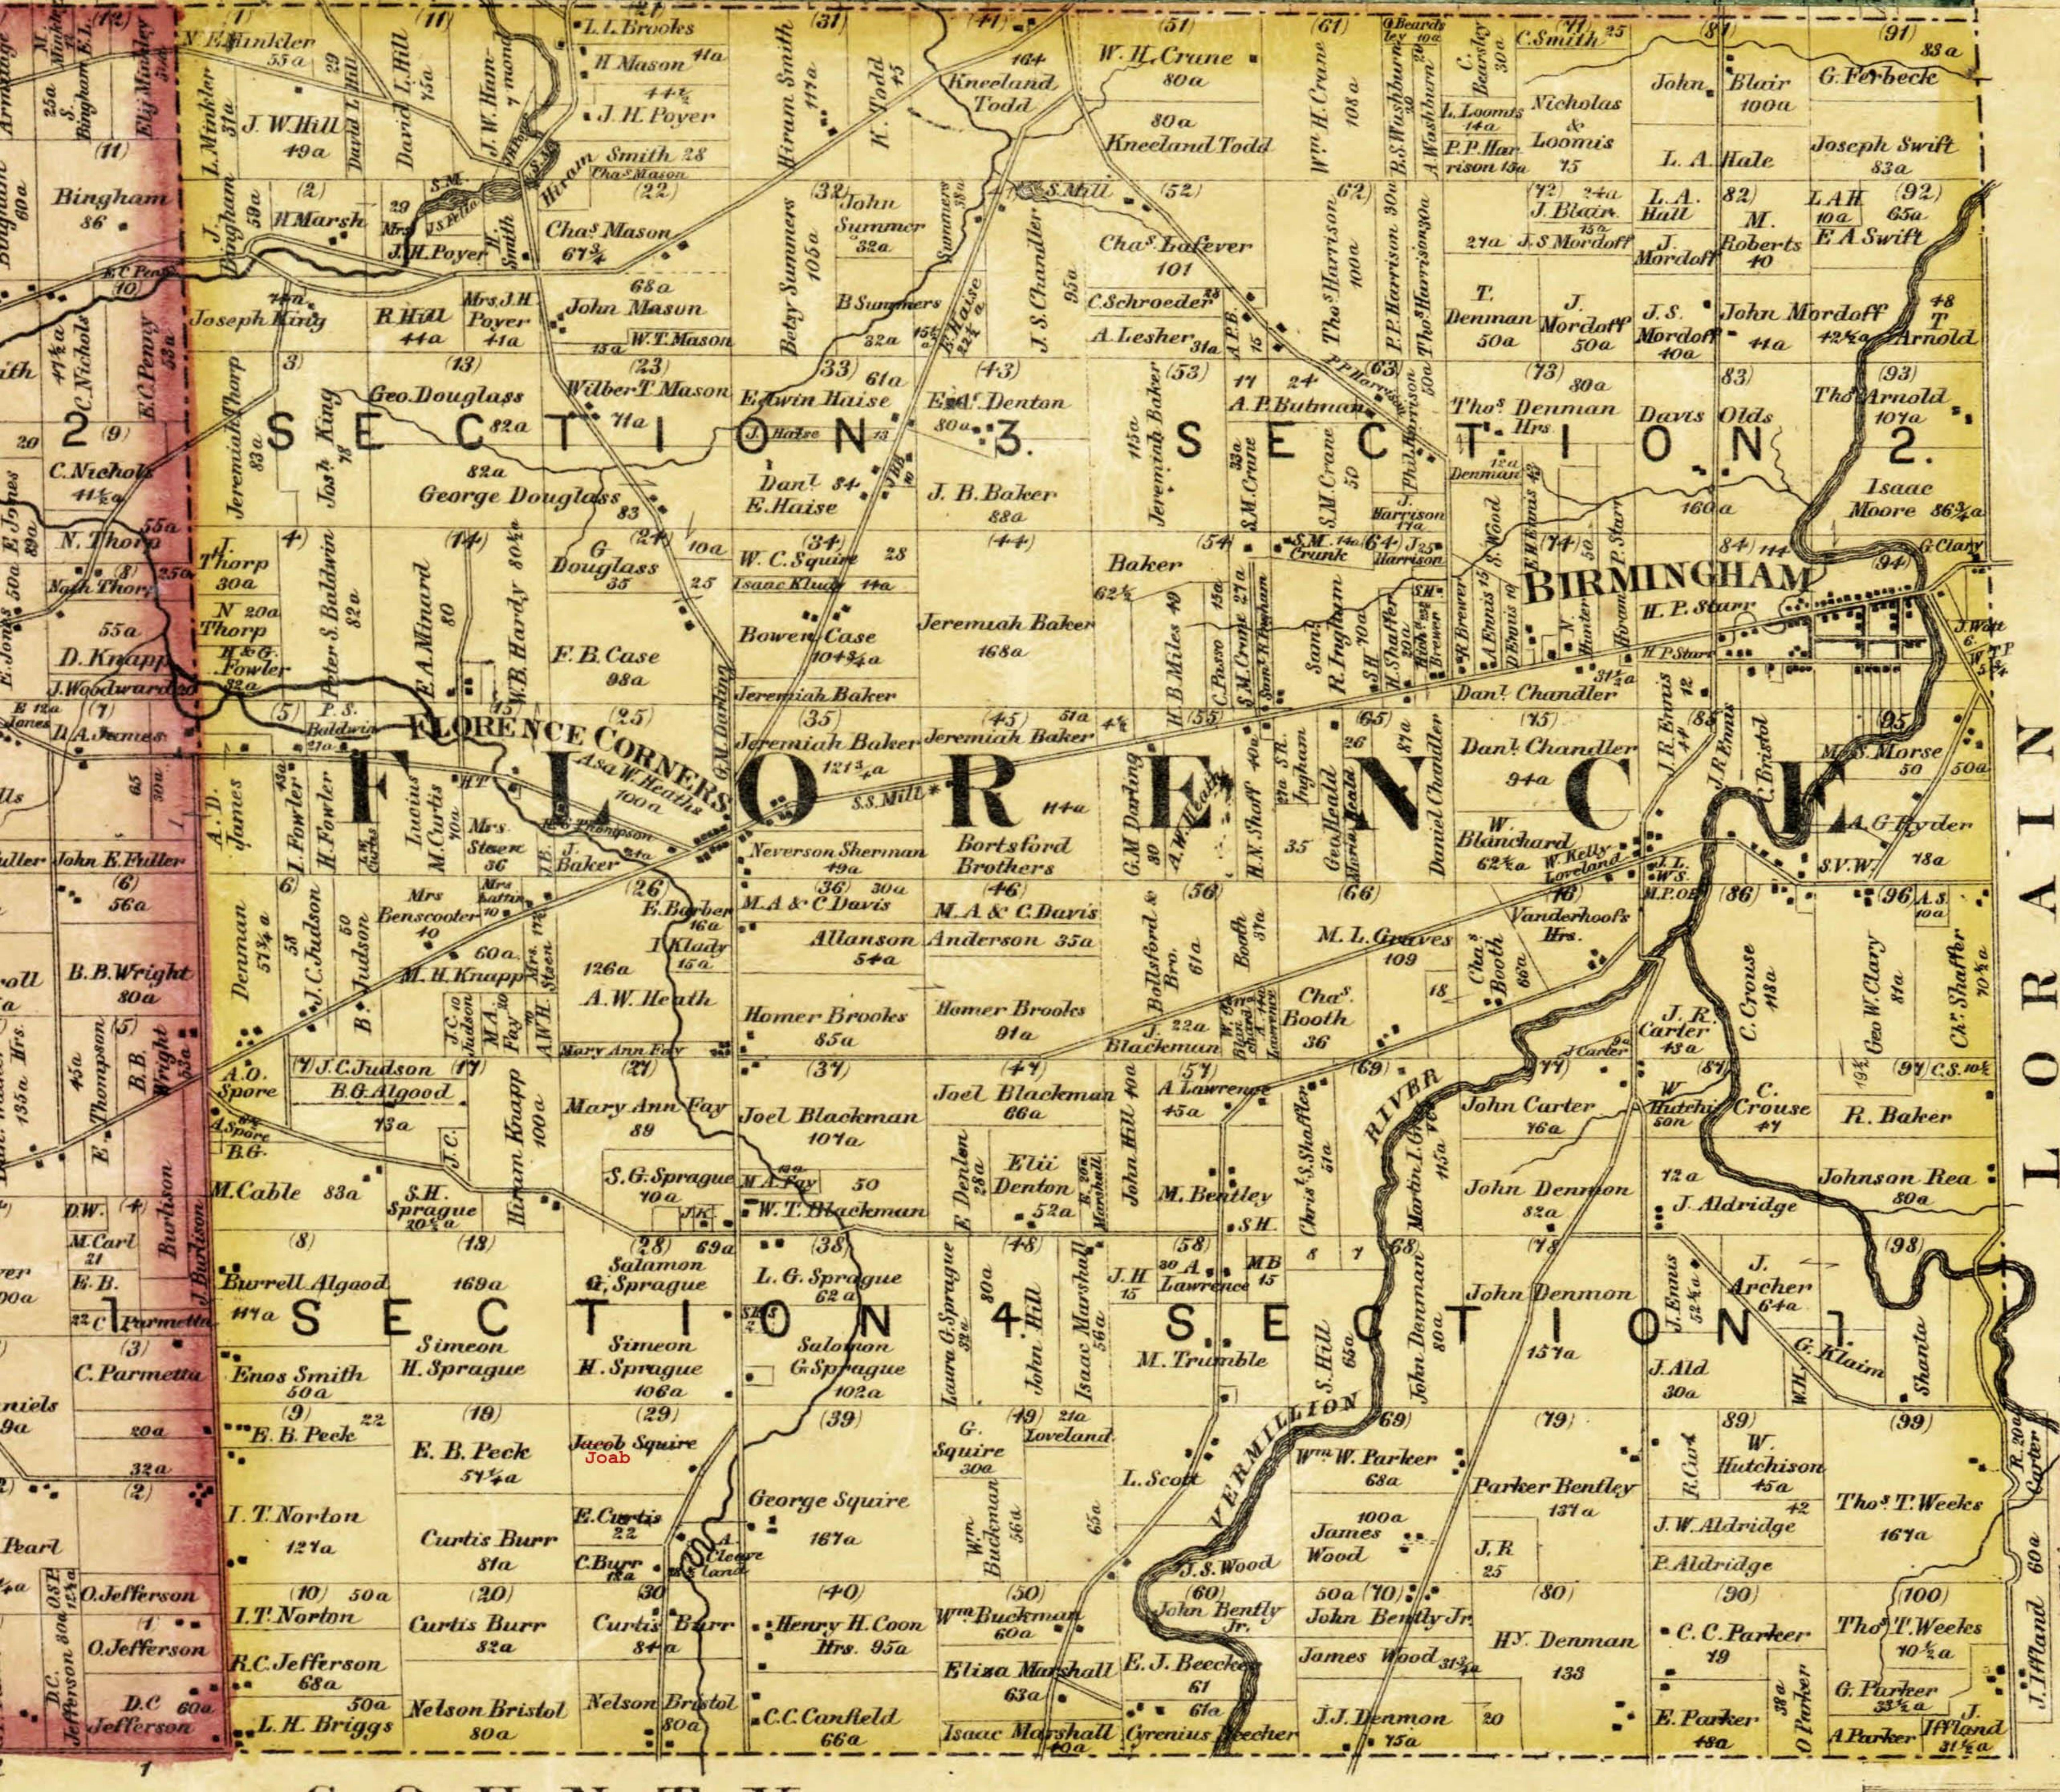

[THE FULL MAP IMAGE AS DISPLAYED BELOW, IS VERY LOW-RESOLUTION (LOW QUALITY) ,
AND, HERE, IS MERELY INTENDED TO SHOW THE OVERALL LAYOUT OF THE ORIGINAL (VERY LARGE) MAP.]

[ALSO BE AWARE THAT SOME OF THE 'OWNERSHIP' NAMES ON THE MAP, WERE MISSPELLED ON IT, (ESPECIALLY GERMANIC SURNAMES).
ACCURATE SPELLINGS CAN USUALLY BE FOUND IN THE ORIGINAL PROPERTY-DEED TRANSFER RECORDS, AT THE COUNTY COURTHOUSES.]
